

Frequently Asked Questions

What is Moodle?

Moodle is a Course Management System (CSM), or also a Learning Management System (LMS). It is a platform for online learning, where teachers and staff can help integrate an environment for online learning alongside the classroom, and make it accessible by parents and students anywhere.

Can I access this Moodle website from anywhere?

As long as you have internet connectivity, you are able to use this Moodle website from anywhere in the world at any time of the day.

Who has access to classes and how do I log on?

Students, teachers and parents have access to the classes they are currently enrolled in. Anyone can look at our entire class list by clicking the “Courses” button on the top menu of the website. Students and parents should use their JMC login information to get into Moodle.

I lost/forgot my username or password, how do I log on?

Come to the Technology office at school or email PACTech4008@Gmail.com for Moodle support.

I can't see my classes!

First, make sure to check that you are logged in, and if you are logged in, that you are under your own account. From there, you will see “My Courses” block on the right sidebar block. If you are not enrolled in any classes and are supposed to be, come to the Technology Office or email PACTech4008@Gmail.com for support.

How do I view the school's entire class listing?

When you wish to view the class listings, find and click the "Courses" button along the top menu bar. Also, on the right hand side of the page, you will find the block "Course categories" options block. At the bottom, click "All courses..."

If I print will I waste ink on the colored background/theme?

It will not waste your ink. Using Internet Explorer and Firefox, it tested as not applying the theme or color settings of the page to your prints.
